**Bayer CropScience – Summer Internship**

**Location:** Dawson, Georgia / Southeastern US

Bayer CropScience is one of the world’s leading innovative crop science companies in the areas of crop protection, non-agricultural pest control, seeds and traits. The company offers an outstanding range of products, and has a global workforce of 20,700 people in more than 120 countries. The intent of the Bayer internship is not only to secure seasonal help for field activities, but to expose the candidate to the culture and activities of the company in the hope of identifying future full-time employees.

**Job description:**
The primary responsibility of this role, as a Bayer CropScience Intern, will be to support and assist the Southeast Cotton Breeding team based in Dawson, Georgia in their efforts to develop high yielding cotton seed varieties with industry-leading fiber quality adapted for the Southeastern US.

**The incumbent will:**
- Assist in the establishment, maintenance, and evaluation of yield trial and nursery plots.
- Assist in the collection and curation of phenotypic data in the field.
- Perform cross pollinations along with and under supervision of the breeding team.
- Perform routine tasks associated with farm maintenance: operating farm equipment, working with irrigation, applying pesticides, controlling weeds, etc.

**Your qualifications:**
The selected candidate is required to possess the following:
- A valid driver’s license
- Working knowledge of MS Word and Excel and the ability to use a tablet computer.
- Must be currently enrolled in, or a recent graduate of, a reputable four-year undergraduate or graduate program with a focus in Plant Breeding, Agronomy, Plant Physiology, Plant Pathology, Entomology or a related field.

**Preferred Qualifications:**
- Experience with row crop production and an interest in plant breeding.
- Detail-oriented and possessing analytical and creative thinking skills.
- Students who have completed their junior or senior year of undergraduate studies or beyond.

**SPECIAL NOTE:** Please **DO NOT** apply if you are unwilling to work outside in extreme weather conditions (heat/humidity/rain) for long periods of time.

**Length of Internship:** 3 months (potentially longer dependent on incumbent’s availability and station’s needs).

**Compensation:** Competitive, and commensurate with experience.

Interested candidates should submit a one-page resume and a cover letter to: Nino Brown, Cotton Breeder, nino.brown@bayer.com
