Undergraduate Research Assistant, Plant Pathology

**Type:** Part-time, 10-15 hours/week (3-hour blocks of time or greater required)

**Term:** Fall semester 2017 (immediately) through Spring 2018, with the potential to continue through Fall 2019

**Pay:** $10.00/hour

**Job description:** Major responsibilities include: preparation of media, reagents, and chemical solutions, sterilization of tools for laboratory use and dishwashing, disposal of biological wastes and basic lab maintenance. In addition, employee may be required to assist principal investigator or graduate students with research involving fungal plant pathogens.

**Minimum qualifications:** Undergraduate student currently enrolled at the University of Georgia (Fall 2017) who will be attending courses through Spring 2018 or later. Candidate must have good attention to detail, and excellent written and oral communication skills.

**Preferred qualifications:** Freshman - junior undergraduate student majoring in the College of Agriculture and Environmental Sciences (CAES). Additional preference will be given to individuals with experience in plant sciences or with molecular biology/genetics laboratory experience.

To apply, submit a cover letter detailing qualifications and skills, a curriculum vitae or resume, and a document that includes your current GPA and weekly work availability. Please provide all application materials and direct any questions regarding the position to Cynthia Chan at ctchan@uga.edu.
