Research and Extension Experiences for Undergraduates

Crop Genetics and Genomics

Are you interested in plant biology, crop genomics, feeding the future and improving fibers, fuels, or forest materials?

We are currently recruiting Fellows for Summer 2018!

Spend 9 weeks this summer conducting laboratory and field-based research with a UGA Plant Center Faculty Mentor. Seminars in professional development, scientific and public communication, and outreach included.

$4,500 stipend provided

Eligibility:
• Currently finishing your first or second year (sophomore or junior this summer)
• Underrepresented groups are encouraged to apply
• US citizenship or permanent residency required
• Must be available from May 21 to July 21, 2018

Application deadline: March 23
